**OGGETTO:** Certificato sanitario per l'esportazione dei prodotti che originano da animali acquatici (pesce e prodotti della pesca inclusi molluschi, crostacei ed echinodermi) verso il Qatar.

S'informa che il certificato per l'esportazione in oggetto (all. 1) è stato redatto dalle competenti Autorità del Qatar.

Inoltre, al fine di fornire elementi di chiarimento sulle procedure di esportazione degli alimenti verso il Qatar si allega il documento, redatto in lingua inglese, "Food importers guide" fornitoci dalla Parte importatrice (all.2).

Il file contenente il nuovo certificato per l'esportazione sarà inserito sul sito del Ministero della Salute alla pagina <http://www.salute.gov.it/veterinariaInternazionale/paginaInternaMenuVeterinariaInternazionale.jsp> nella sezione Veterinaria Internazionale.

Nell'invitare codesti Assessorati a voler cortesemente informare di quanto sopra i Servizi Veterinari territorialmente competenti, nonché gli Enti e gli operatori commerciali interessati, si ringrazia per la collaborazione.

AUGARD N° 2

# FOOD IMPORTERS GUIDE

# 1. Introduction

Port Health and Food Control Section / Ministry of public Health (MOPH) have the authority to control imported food under the provisions of the Food Control Law No. 8 / 1990, amended by Law No. (4) / 2014.

Port Health and Food Control Section is follows Food Safety and Environmental Health division / Public Health Department, control over all imported food: fruit, vegetables, species, meat and meat products, milk, fish and all other foods that are imported to Qatar from all over the world.

More than 80 technical employees' woks at this section. Four units follow the section: Abu Samra heath unit, Hamad seaport heath unit, Ruwais heath unit and Hamad International Airport heath unit, woks 24/24 hours, 7 days a week.

Qatar Technical regulations and standards are the references to comply imported Foods. So any foodstuff matching with the requirements released for use and any foodstuff proves to be unsafe or noncompliance (destroyed or re-exported).

Ministry of public Health (MOPH) recognizes that effective and efficient inspection and certification systems and its essential role in the food trade movement.

Ministry of public Health (MOPH) committed to matching all imported foods to Qatar complies with the relevant Qatar requirements and regulations.<sup>1</sup>

Qatar Technical Regulations and Standards Can be divided into two groups: General group includes general requirements for all types of food as Qatar Technical regulation No. QS 9 (labeling requirements), Qatar Technical regulation No. QS 2500 (List of permitted additives), Qatar Technical regulation No. QS 150 (Mandatory Expiration dates for food products), the second group can be called specific group which determine the specific requirement for each type of food.

No need to register food items prior to importation. We don't require the prior approval of the importation, but we ask importers to be sure that Imported products comply Qatar standards requirements. We are currently working on the product registration system, which will be activated soon. When applying this system, everyone will be required to register products before importation. This will help to apply best practice of food control.

Don't hesitate to contact us if you have any questions, we are always ready to advise you as we can.

<sup>1</sup> All Qatar food standards and technical regulations are available at Qatar General Organization for Standards and Metrology / Abu-Hamour

## 2. Inspection Steps

### 2.1. Checking of Required Documents and Health Certificates:

Verifying Health Attestations can be considered as the first step of inspection measures of imported food consignments. This step started directly after submitting the customs document to the Health unit which must be attached with:

- Registration form that can be found on MOPH website at this link:  
[www.moph.gov.qa/app/media/6065](http://www.moph.gov.qa/app/media/6065)
- Copy of Customs Declaration
- List of Contents.
- Health certificate that must:
  - Issued by competent authority at the Country of origin / Exporting country
  - Related to the shipment (General information about the producer or free sale certificate not accepted).
  - Include clear health attestations (See Health Certificate Templates)
  - Attested by Qatar Embassy at Country of origin / Exporting country, unless otherwise issued.
- Halal Slaughtering Certificate for meat and poultry / Halal certificate for food items that contain ingredients of animal origin that must:
  - Issued by Approved Halal Association in Qatar (See link) at the Country of origin / Exporting country: [www.moph.gov.qa/app/media/3361](http://www.moph.gov.qa/app/media/3361)
  - Related to the shipment
  - Include Halal attestations (See Halal Certificate Templates)
  - Attested by Qatar Embassy at Country of origin / Exporting country, unless otherwise issued.
  - Temperature records where required.
- MOPH may ask for additional documentation as requested specially in case of emergency cases.

### 2.2. Physical inspection and sampling of imported Foods:

This includes:

1. Checking the suitability of the Conveyance / Vehicle / container / Packs.
2. Checking the Items: label / language / ingredients ...
3. Take samples from new items or when required (According to the level of risk)

### 2.3. Temporary Release (Issue detention of consignment):<sup>2</sup>

Temporary Release done in case of:

- Absence of a list of contents.

<sup>2</sup> Submit a request from importer to the Port of Entry asking for Temporary Release, including a commitment from the importing company that the consignment will be under detention until the final decision on the consignment.

- Incompatibility of food items described in the certificate with those in the consignment.
- Absence of original copy of required health certificate and/or reference number of electronic health certificate.
- The required health certificate issued before the production date of the food
- The health certificate being issued after the date of shipment of the food
- Absence of original copy of Halal slaughtering certificate with the imported meat or poultry consignments
- Broken or changed security seals/locks prior to official inspection.
- Evidence of any fraudulent certification.

#### And in case of:

- Complete inspection outside the port if required.
- More time for additional information from the manufacturer/supplier needed
- Waiting for laboratory analysis reports when take samples.
- More time for re-export the consignment needed
- More time for Destruction under the supervision of the competent authority needed
- Waiting for Managers final decision.

#### 2.4. Automatically rejected Foods:

##### Automatically rejected where:

- Previous importations have been repeatedly non-compliant
- If food Listed as Banned Imported Foodstuff to Qatar according to competent authorities decisions
- Has already been rejected by another country for food safety reasons .
- If the food is imported from a country or region where health risks have been reported
- If the consignment contains clear rejection reasons.

#### 2.5. Food prohibited from importation on food safety grounds:

##### The following foods are prohibited from entry and will not be inspected:

- Prohibited food included in List of banned foods in Qatar that published on MPOH website: <https://www.moph.gov.qa/app/media/4171>
- Foodstuff transported in noncompliance with relevant Technical regulations, or not comply the requirement of the Annual announcement of Transport during the summer period, which published on MOPH website: <https://www.moph.gov.qa/app/media/3059>
- Food not provided with food safety assurances by the competent authority in the country of origin/country of dispatch.
- Food not provided with food Halal assurances .

- Food from wild animals and plants that are not permitted based on scientific evidence or Qatar requirements and international standards.

### **3. Dealing with rejected consignments**

#### **3.1. Re-Export:**

Re-export steps include the following:

- Submit an application to the port of departure for the imported foodstuffs that are to be re-exported through the clearance company with the required consignment documents (Copy of the customs declaration of arrival - a copy of the customs declaration re-export - copy of the invoice received - copy of the re-export invoice, provide a copy of the registration form and inspection of food consignments, which shows the reasons for rejection attached with detention / reservation notification).
- Submit a copy of the customs declaration to the port of Entry with an official statement from the Customs that the re-export actually took place.
- Re-exports are allowed for consignments rejected for food safety reasons after getting prior approval from competent authority in the country of origin / export.

#### **3.2. Destruction:**

Destruction steps include the following:

- Fill out the attached destruction request form for each shipment and attach the required documents.
- Apply through the clearance company to the health office at the concerned port, which in turn coordinates with the Waste Treatment department / Ministry of Municipality and Environment.
- Follow up the port's instructions to complete the process of destruction on time
- The date of destruction is determined
- The destruction process is carried out under the supervision of the concerned port and with the presence of the health inspector and in coordination with the waste treatment department / Ministry of Municipality and Environment.

### **4. Section's Services Guide**

To check the services provided by the Port Health and Food Control Section as an application for registration of the consignment to complete the inspection, or to request the release of detained foodstuff, or the request for certificates or any other services it is advisable to check the Services Guide published on MPOH website: <https://www.moph.gov.qa/app/media/5803> and follow the instructions contained therein to facilitate the receipt of the required service and to save time and effort on importers.
